* for direct payment only

Prices are approximate. Prices will be recalculated at the current daily exchange rate. Prices are subject to change.

INFORMATION ON PROCEDURES

Procedures by Doctor's Prescription

For procedures requiring a prescription, a doctor's indication is necessary, meaning the procedure is determined by the spa doctor according to the health condition and therefore cannot be purchased in advance.

Over-the-Counter Procedures

Based on the intensity of the stress on the body, our doctors recommend undergoing a maximum of 1 large procedure, 2 small procedures, and 1 inhalation/oxygen therapy per day.

Natural Carbonated Baths including natural carbonated baths with additives and warm compresses (such as peat and paraffin) can be taken up to 2 times per week without a doctor's prescription. For the 3rd and any subsequent natural carbonated bath/warm compress, a doctor's prescription is required.

In case of any doubts about the suitability of a procedure, contraindications, etc., always consult a spa doctor with the procedure prescription.

Procedure Substitution

This is only possible for treatment stays if prescribed by a doctor for medical reasons. For any other change of a scheduled procedure, a

INHALATION FOR HEALTH

*Discover the power of inhaling natural healing waters. **It will boost your immunity, relax your airways and induce a sense of calm. We recommend at least 5 inhalations for prevention.***

DRINKING CURE

Because of its therapeutic effect, the drinking cure is mainly prescribed for diseases of the digestive system, diabetes and also has a positive effect on your respiratory tract.

Did you know that a drinking cure has its own rules?

Drinking cure should be done on an empty stomach. The ideal time to drink mineral water is in the morning between 6 a.m. and 8 a.m. (before breakfast) and in the afternoon between 4 p.m. and 6 p.m. (before dinner).

The recommended daily dose is 400–500 ml of medicinal water (200–250 ml in the morning and the same amount in the afternoon). Drink a glass of water *slowly* (2-3 minutes). It is *recommended* to *pause for* 10 minutes before drinking another glass. **A slow walk while drinking is recommended.**

*Experience the healing power of the unique natural waters here and **taste the freely accessible** springs of Vincentka, Ottovka, Nový Jubilejní, Dr. Šťastný or Aloiska.*
